

“Moscow-Istanbul: Cooperation Without Borders” Conference

October 2, 2023

Istanbul city, Republic of Turkey

Venue: DEIK

Program

The conference is aimed at discussing opportunities for scaling business, developing exports and enhancing interregional trade and economic cooperation based on new formats and models of cooperation.

During the business event, it is planned to discuss a wide range of issues related to business development at the regional level, problems of interaction under current restrictions, as well as exchange practices in implementing export strategies.

The discussion panels will include presentations of business projects in the field of construction, digital technologies and others, discussion of opportunities for cooperation and joint exports with partners from the Republic of Turkey; exchange of contacts, b2b and b2g meetings.

Conference participants are the representatives of business, industry associations, development institutions and export support infrastructure, ministries and departments at the regional and national level, regional and city administrations.

Working languages: Russian and Turkish (simultaneous translation)
